

# ATLAS DUNNAGE ENVIRONMENTAL POLICY

As ATLAS Dunnage, we aim to manage our activities with the principle of sustainable environment and energy in order to leave a habitable world to next generations.

In accordance with this purpose, we are committed;

- To carry out the necessary resource planning to fulfill the conditions of environmental management systems.
- Efficient use of natural resources.
- To minimize environmental impacts at every stage of our processes.
- To continuously improve our environmental performance.
- To reduce waste at its source, to support reuse and recycling within the framework of a preventive approach.
- To increase environmental consciousness and awareness of all stakeholders and interested parties.
- To fully comply with environmental legal requirements.
